Assistant Executive Director

FOREWORD

This report is one of a series of provincial reports on the results of the 1980 Census of Population and Housing conducted on May 1, 1980.

Demographic data presented herein consist of population distributions according to age, sex, marital status, highest grade completed and literacy. Other bases as gainful occupation, industry and migration are included likewise.

In the other aspect of the census, the following housing characteristics are considered: type of building, structural characteristics, floor area, type of tenure, use and source of water supply, lighting, type of toilet facilities, kind of cooking fuel used and appliances.

Subsequent issues will be the National Summary (Volume II) containing summary data on the final provincial reports and the Special Volume on National Capital Region (Metro Manila Area) which will cover data on the social, economic and demographic characteristics of the region.

Grateful acknowledgment is due the National Census Coordinating Board, government agencies, committees and the local coordinating boards for their invaluable assistance and cooperation.

TITO A. MIJARES

E PH Form 4 – Collective Household Questionnaire	219

Explanatory Text

GENERAL

INTRODUCTION

The National Census and Statistics Office conducted in May 1980, the 1980 Census of Population and Housing. This type of Census was also undertaken in May 1970. In May 1975 the Census of Population was taken as Phase I of the 1975 Integrated Census of the Population and Its Economic Activities. This nationwide undertaking was designed to obtain comprehensive data on the size, distribution, structure, change and socio-economic characteristics of the population and to take inventory of the housing accommodations, their geographic location, structural characteristics, available facilities, etc.

The population report contains data gathered from private households as well as collective households, while data on housing were collected from private households only.

It should be emphasized at this point that a complete enumeration of all households throughout the country was made but only sample household questionnaires representing 20 percent of the listed households were processed and the data published in this volume. In so doing, however, the total population count by barangay, male and female, obtained from the listing sheet taken simultaneously during the enumeration was maintained in computing the weights or expansion factors. It should also be noted that data on Tables 1 to 4 of the population tables refer to total population, that is, the population of the private households plus the collective households while Tables 5 to 10 cover exclusively the private household population.

Pursuant to the provision of Batas Pambansa Bilang 72, a final count of the population, by sex at barangay level was submitted to the President and was approved under Proclamation No. 2170 dated March 12, 1982. This report was published separately in 74 provincial volumes.

AUTHORITY FOR THE 1980 CENSUS

Under Commonwealth Act No. 591, the National Census and Statistics Office is authorized "to prepare for and undertake all censuses of population, agriculture, industry and commerce."

It may be mentioned in this regard that sometime in February 1980 Parliamentary Bill No. 809 was presented at the Batasang Pambansa, providing for the taking of an integrated census every ten years beginning 1980, with May 1 of every census year as the reference date. This bill was approved into Batas Pambansa Bilang 72 on June 11, 1980, more than one month after the start of enumeration.

INTER-AGENCY PARTICIPATION

The expertise and technical advice of the National Economic and Development Authority Inter-Agency Committee on Population and Vital Statistics and its Technical Working Group on 1980 Census of Population and Housing played a vital role in the successful undertaking of the census.

The Committee's main function was to review the questionnaire, methodologies, concept, tabulation and other related aspects of the census in the production of data and development of systems that would produce more reliable and accurate result. It had for its chairman the Dean of the University of the Philippines Population Institute (UPPI) and for its members, one representative each from the Ministries of Human Settlements (MHS), National Defense (MND), Education and Culture (MEC), Health (MOH) and Local

EXPLANATORY TEXT

Government and Community Development (MLGCD); the Commission on Population (POPCOM); National Economic and Development Authority (NEDA); and two representatives from the National Census and Statistics Office (NCSO). The Technical Working Group (TWG) for the 1980 Census of Population and Housing was headed by the Chief of the National Census and Household Surveys Department of NCSO and the members were representatives from the MHS, EPRS-NEDA, SCO-NEDA, POPCOM, UPPI, MOH, MEC, and the National Housing Authority (NHA).

Recommendations were likewise solicited from other government agencies for questions that should possibly be included in the population and housing portions in order to fill their data needs.

As early as August 1977, an NCSO Technical Committee for censuses was created. Ranking officials of the National Census and Statistics Office comprised the committee, with the Assistant Executive Director as Chairman, the Chief of the National Census and Household Surveys Department (NCHSD) as Vice-Chairman and Heads of six other departments and staff offices as members.

The committee coordinated with the Inter-Agency Committee and TWG of the NEDA on the technical aspect of the census and rendered a monthly progress report to the Executive Director. It provided the overall direction of the activities of the different subcommittees on census. The two subcommittees created, the Sub-Committee on Population and Housing Census and the Sub-Committee on Operations and Logistics Support, were directly charged with the preparatory work for the census undertaking.

CENSUS BOARDS

A systematized involvement of government agencies and instrumentalities was made possible largely through the concerted efforts of the members of the National Census Coordinating Board (NCCB) and the Provincial, City and Municipal Census Boards. The national board was created by NEDA Memorandum Order No. 4-80, dated April, 1980 and the local boards, by Memo Order No. 5-80, dated April 1, 1980, by virtue of the powers vested in the Minister of Economic Planning under Section 3 of Presidential Decree No. 1200.

The NCCB was headed by the Minister of Economic Planning as Chairman with the Executive Director as Executive Officer. Named as members were the Ministers of Agriculture, Budget, Education and Culture, Finance, Human Settlements, Public Works, Justice, Labor, Local Government and Community Development, National Defense, Natural Resources, Public Highways, Public Information and Transportation and Communication. Rules and regulations necessary for the successful undertaking of the census were issued by the Board.

At the local government level, similar functions were carried out by the Provincial City and Municipal Census Boards. The Provincial Governor headed the Provincial Census Board while the Division Superintendent of Schools was Vice-chairman. Members were the Highway District Engineer, Provincial Auditor, Provincial Commander of the Philippine Constabulary, the Provincial Development Officer and the Provincial Agriculturist. The City Census Board was composed of the City Mayor as Chairman; City Superintendent of Schools, Vice-chairman; and the City Engineer, City Assessor and City Development Officer, members. Finally, the Municipal Census Board had for its Chairman the Municipal Mayor and ably assisted by the District Supervisor as Vice-chairman. The members were the Municipal Agriculturist, Station Commander, Municipal Treasurer and the Municipal Development Officer.

EXPLANATORY TEXT

For each of these local census boards, the Provincial Census Officer, City Census Officer and the Municipal Census Officer were designated Executive Officer of their respective Board.

CENSUS ORGANIZATION

The overall direction and instructions for the census undertaking emanated from the Executive Director of the National Census and Statistics Office or in his absence, the Assistant Executive Director.

Assisted by the Task Force from the Central Office and in coordination with the local census boards, the Regional Census Officers and the Provincial Census Officers directly supervised the field operations in their respective areas. The services of District Supervisors, Head Teachers and elementary school teachers from public schools were utilized as City/Municipal Census Supervisors, Team Supervisors and Enumerators in that order.

During the field operations, the 1980 Census Operations Center under the overall supervision of the National Census and Household Surveys Department Chief, was the operating body that monitored the overall operations. Lending support to the center were the Administrative and Fiscal Services Staff.

METHOD OF ENUMERATION AND USE OF SAMPLING

The household was used as the enumeration unit and a complete listing of dwelling units, including vacant ones, was done.

A combination of complete enumeration and sampling was adopted. While all households were asked on the count of the population and housing characteristics, only twenty percent (20%) were asked on other characteristics. The selection of sample households was done systematically with a random start from a listing of households which was prepared simultaneously with the enumeration.

Using PH Form 2 (Common Private Household Questionnaire) and with an 80 percent coverage, the items asked on population were household membership, relationship to head, line number of mother, sex, date of birth, age as of last birthday and marital status. For the housing items, the type of building and the construction materials of roof and outer walls, number of rooms, floor area of the dwelling unit and the year the building was built were asked.

In addition to the population and housing items just mentioned, additional information were asked using PH Form 3 (Sample Private Household Questionnaire) from the 20 percent samples such as language or dialect generally spoken at home, citizenship, usual residence of mother at person's birth, residence of person in 1975, ability to speak Pilipino and English, school attendance, highest grade completed, literacy, economic activity of the person, place of schooling or work, fertility, nature of occupancy of the dwelling unit and housing facilities and conveniences.

Collective households were enumerated using PH Form 4, where the information asked were the same as those in PH Form 2, excluding housing items.

PLACE WHERE ENUMERATED

All persons were enumerated in their usual place of residence, which is the geographic place (street, barangay, sitio, municipality or province) where the enumerated person usually resides. As a rule, it is the place where he usually sleeps; therefore, it may be the same as or different from the place where he was found at the time of the census.

EXPLANATORY TEXT

POST ENUMERATION SURVEY

Originally the plan was to conduct a Post Enumeration Survey covering the whole country. For lack of funds the survey had to be confined to Metro Manila. Its purpose was to determine the extent of underenumeration or overenumeration in the 1980 Census of Population and Housing.

A sample of 132 barangays was selected. However, in 59 barangays which were divided into two or more enumeration areas (EAs), an enumeration area was chosen as sample.

A complete listing was made of households in the sample barangays/EAs using PH Form 1-B. Twenty percent of these households were selected as sample households and interviewed using PH Form 2, which was the same questionnaire used for non-sample households during the main enumeration. The housing portion of this form was disregarded.

CONTENT AND COVERAGE OF THE PUBLICATION

In this publication, the population and households were described according to the respective items listed below:

Population Items	Housing Items
Age	Type of Building
Sex	Type of Occupancy
Marital Status	Construction Materials of Roof and Outer Walls
Highest Grade Completed	Year Built
Literacy	Floor Area of Dwelling Unit
Language/Dialect Spoken in the Household	Tenure of Owner-Occupant with Respect to the Land
Gainful and Non-Gainful Occupation	Kind of Lighting Facilities
Major and Minor Industry	Use and Source of Water Supply
Migration	Type of Toilet Facilities
	Kind of Cooking Fuel
	Household Appliances

The above items are presented in the ten population tables and nine housing tables of this report.

Except for figures on total population and sex, all other characteristics were based on a 20 percent sample.

Aside from these published tables, 10 other tables on the above characteristics plus 6 statistical tables dealing on ever-married women 15 years old and over are also available to statistical users.

DEFINITION OF TERMS AND CONCEPTS

I – POPULATION

BARANGAY

A barangay is the smallest political unit in the country and generally its enumeration is

EXPLANATORY TEXT

assigned to one enumerator. For enumeration purposes, a large barangay is usually split into parts and each part is called an enumeration area (EA).

ENUMERATION AREA

An enumeration area (EA) is a delineated area assigned to one enumerator, usually consisting of about 300 households. A barangay or part of a barangay may have been designated as an enumeration area.

URBAN AND RURAL AREAS

The same concepts used in the 1970 and the 1975 Censuses were followed in classifying areas as urban. According to these concepts, urbanized areas consist of:

1. In their entirety, all cities and municipalities having a population density of at least 1,000 persons per square kilometer.
2. Poblaciones or central districts of municipalities and cities which have a population density of at least 500 persons per square kilometer.
3. Poblaciones or central districts (not included in 1 and 2), regardless of the population size, which have the following:
 - a. Street pattern, i.e., network of streets in either parallel or right-angle orientation;
 - b. At least six establishments (commercial, manufacturing, recreational and/or personal services); and
 - c. At least three of the following:
 - 1) A town hall, church or chapel with religious services at least once a month;
 - 2) A public plaza, park or cemetery;
 - 3) A market place or building where trading activities are carried on at least once a week;
 - 4) A public building like a school, hospital, puericulture and health center or library.
4. Barangays having at least 1,000 inhabitants which meet the conditions set forth in 3 above, and where the occupation of the inhabitants is predominantly non-farming or fishing.

All areas not falling under any of the above classifications are considered rural.

PERSONS ENUMERATED IN A PRIVATE HOUSEHOLD

The following were counted and enumerated as members of the household:

1. Persons whose usual place of residence is the place where the household lives and present at the time of visit of the enumerator, except those born after 12:01 A.M., May 1, 1980;
2. Persons whose usual residence is the place where the enumerated household lives, but temporarily away at the time of enumeration, such as:
 - a. persons temporarily away on vacation, business or pleasure trip or any other purpose in the Philippines who are expected to be back within six months,

EXPLANATORY TEXT

- or within one year, if abroad;
 - b. students who usually go home to their respective households at least once a week;
 - c. persons working elsewhere who usually go home to their respective households at least once a week;
 - d. patients confined in hospitals for not more than six months at the time of enumeration of the household, except those confined (1) as inmates (not patients in wards for temporary confinement) in tuberculosis pavilions; (2) in mental hospitals; (3) in leprosaria or leper colonies; and (4) in rehabilitation centers for drug addicts;
 - e. trainees in the Armed Forces of the Philippines, if their training is not more than six months;
 - f. convicts and detainees in provincial or municipal/city jails or military camps, who have been confined for not more than 6 months at the time of enumeration of the household, except those who have been sentenced for more than 6 months (including those whose sentence is on appeal), even though just confined; and
 - g. officers and crew members of coastal, interisland, or fishing vessels; officers and crew members of ocean-going vessels who usually go home to their household at least once a year.
3. Boarders of the household who are working, looking for work or studying, and who do not go home at least once a week;
 4. Employees of household-operated enterprises who eat and sleep with the household and who do not go home at least once a week;
 5. Persons (other than those in "3" and "4") whose usual place of residence is elsewhere, but who have been away from their usual place of residence for more than 6 months;
 6. Members of the Armed Forces of the Philippines including draftees, sleeping most of the nights with the household, except those who only board or lodge with the household and who usually go home at least once a week; in such a case, they will be enumerated in their own household;
 7. Persons found in the household who have no usual place of residence elsewhere;
 8. Persons found in the household who are not certain of being enumerated elsewhere;
 9. Persons who consider the dwelling unit of the household as their usual place of residence but are living within the premises of a foreign embassy, ministry, legation or consulate, including non-Filipino employees who have been residents of the Philippines before such employment;
 10. Citizens of foreign countries and Filipinos (balikbayan) who have resided or expect to reside in the Philippines for more than one year from arrival;
 11. Persons who sleep in the same dwelling unit but may not be able to take all or some of their meals with the household because of the nature of their work or other similar reason (they take their meals at place of work, etc.), should be considered as part of the household; and
 12. A household member who is alive as of 12:01 A.M., May 1, 1980, but dies prior to the enumeration of the household.

EXPLANATORY TEXT

PERSONS TOTALLY EXCLUDED FROM THE ENUMERATION

Totally excluded from the population count of the Philippines were:

1. Foreign ambassadors, ministers, consuls or other diplomatic representatives, and members of their households (except Filipino employees and non-Filipino employees who had been residents of the Philippines prior to said employment);
2. Citizens of foreign countries living within the premises of an embassy, legation, chancellery or consulate;
3. Officers and enlisted men of U.S. Military or Naval Forces and non-Filipino members of their households, irrespective of residence; foreigners who are civilian employees in U.S. military or naval stations and member of their families living within the premises of said stations or reservation; (Note: for foreigners who are civilian employees of said stations living outside the station or reservation, see Item 5).
4. Citizens of foreign countries who are Chiefs and officials of international organizations like UN, ILO or USAID, who are subject to reassignment to other countries after their tour of duty in the Philippines, and members of their families;
5. Citizens of foreign countries together with non-Filipino members of their families, who are students or who are employed, or have business in the Philippines and have been in the Philippines or expect to stay in the country for one year or less from arrival;
6. Citizens of foreign countries and Filipinos with usual place of residence in a foreign country, who are visiting in the Philippines and expect to stay in the country for one year or less from arrival (e.g. a *balikbayan* who will return to his usual place of residence abroad after a short vacation or visit in the Philippines);
7. Citizens of foreign countries in refugee camps/vessels; and
8. Residents of the Philippines on vacation, pleasure or business trip, etc. abroad, who have been away or expected to be away from the Philippines for more than one year from departure.

USUAL PLACE OF RESIDENCE

The term refers to the geographic place (street, sitio, barrio/barangay, municipality or province) where the enumerated person usually resides. As a rule, it is the place where he sleeps most of the time; hence, it may be the same as or different from the place where he was found at the time of the census.

HOUSEHOLD

A household usually consists of a group of persons who sleep in the same dwelling unit and have common arrangements for the preparation and consumption of food. A person who lives alone is considered as one separate household. Although in most cases a household consists of a related family group, some household members may have no relationship to the central group. Boarders and servants, for instance are counted as part of a particular household if they take their meals with the household and sleep in the same dwelling unit. Persons who sleep with a household but individually cook their meals or eat elsewhere are each considered as single-person household.

EXPLANATORY TEXT

Three generations may be living in one dwelling unit. If they are divided into two or more groups whose eating arrangements are independent from each other, each group is counted as a separate household.

PERSONS NOT LIVING IN HOUSEHOLD

Falling under this category are persons living in collective living quarters such as welfare institutions (orphanages and homes for the aged or infirm); penal and corrective institutions (jails, national penitentiary, and reformatory institutions); hospitals, sanatoria, leprosaria, and nurses homes; dormitories and boarding schools; lodging houses such as hotels, tourist homes and the like; military camps and others.

Most of these institutions house inmates for whom care or custody is provided by resident staff members, or persons residing in group quarters or in housing units on the institutional grounds.

Private families living within such institutions, however, are excluded from the classification, as well as persons (employees, students, etc.) who go home to their families on weekends or days off. Persons found in lodging houses, but who are on vacation or business trips and whose absence from home does not exceed six months on the day of enumeration, are likewise not counted as part of the institutional population.

RESPONDENT

A respondent is any responsible adult member of the household who furnished the information or answers to questions during the interview.

LANGUAGE/DIALECT GENERALLY SPOKEN IN THE HOUSEHOLD

This refers to the language or dialect spoken most of the time by members of the household. In cases where two or more languages/dialects are spoken by household members, the one most often used in conversations among members of the family of the head when most of them are gathered together is considered as the language/dialect generally spoken in the household.

HEAD OF HOUSEHOLD

The person responsible for the care and organization of the household is generally considered as the head of the household. He usually provides the chief source of income for the household.

In the case of a household consisting of two or more unrelated persons sharing a dwelling unit and sharing the same cooking facilities and meals, the head is usually the eldest male or female in the group regarded as such by the other members.

RELATIONSHIP TO HEAD OF HOUSEHOLD

This determines how each household member is related to the head, who is usually the husband or father, although in his absence or if incapacitated, the wife may be designated as head.

1. Spouse – a woman/man married to and living with the head. This includes legal marriages as well as common-law relationships.
2. Son/daughter – the head's own child, stepchild, or adopted child.

EXPLANATORY TEXT

3. Son-in-law/daughter-in-law – refers to a household member related to the head by marriage to his daughter or son.
4. Grandson/granddaughter – child of the son or daughter of the head.
5. Other relative – a household member related to the head by blood, marriage, or adoption. Father, mother, aunts, nephews, parents-in-law and cousins are examples.
6. Others – any person in the household who is usually a non-relative of the head. Boarders and servants fall under this category. Certain members of the household who are related to the head by blood or affinity, but are actually boarders or servants in the household, are classified under "Others".

For collective households and group quarters, the question on relationship refers to the person's relationship to the institution or establishment, and not to the person recorded as head.

AGE AND DATE OF BIRTH

Data on the age of the population were obtained by asking the respondent the month and year of birth and the age itself of the household member before May 1, 1980. To ensure accuracy, a conversion table on age before May 1, 1980 was prepared for the use of enumerators, editors/coders and verifiers.

MARITAL STATUS

This refers to the civil status of all persons 10 years old and over. A person in this age group is classified as single, married, widowed, separated or divorced, or civil status unknown, based on the following definitions:

- a. Single – If never been married.
- b. Married – Legally married or living consensually with husband/wife without benefit of a legal marriage. A person classified as "married" includes one who remarried after having been widowed, separated or divorced or one temporarily separated from spouse owing to the nature of work, illness or service in the Armed Forces.
- c. Widowed – A person whose spouse died and who has not remarried at the time of enumeration.
- d. Separated – If permanently separated from spouse either legally or otherwise, due to marital discord.
- e. Divorced – If bond of matrimony has been dissolved through a court decree and is therefore free to remarry.
- f. Unknown – If civil or marital status is either not known to the respondent, or the respondent himself refuses to reveal the marital status of such person.

CITIZENSHIP

Citizenship is defined as the legal nationality of a person. A citizen is a legal national of the country of the census; an alien is a non-national of the country.

LITERACY

A person is considered literate if he is able to read and write a simple message in any language or dialect.

EXPLANATORY TEXT

HIGHEST GRADE COMPLETED

This has reference to the specific grade or year completed in elementary school, high school, college or university, by persons 7 years of age and over. Academic degree holders are classified according to the title of the degree received or the major field of study undertaken.

USUAL OCCUPATION

This refers to the specific job or kind of work that a person, who works most of the year, is usually pursuing, or if unemployed at the time of enumeration, it is the kind of work he used to do most of the year. A person is considered as usually working most of the year if he works for at least 10 hours a week for 26 weeks either for pay in cash or in kind, for a fee or profit in own farm, business or establishment or practice of a profession and without pay on family farm or enterprise. This particular group of workers is referred to as gainful workers.

For persons who do not work most of the year, the usual occupation relates to the non-gainful activities they usually do most of the year. Among such persons are housekeepers, students, pensioners, retired and disabled. However, a person who is housekeeping or schooling and also works in a gainful activity was reported as gainfully employed, even if more time was spent housekeeping or studying, as the case may be.

INDUSTRY

Industry refers to the specific character and nature of business or industry or the place where the work is being performed in connection with the job or occupation reported for a person.

EVER-MARRIED WOMAN

This refers to a woman who has already entered married life. Marriage here may either be legal or consensual union. At the time of enumeration the ever-married woman may still be married, or already widowed, separated or divorced.

II – HOUSING

BUILDING

A building is any independent free-standing structure comprising one or more rooms or other spaces, covered by a roof and enclosed within external walls or dividing walls with adjacent building which usually extend from the foundation to the roof. It usually contains one or more rooms internally connected with one another. A building therefore, is any structure intended for dwelling, storage, factory, shelter or for some other useful purposes.

For purposes of the 1980 Census of Population and Housing, only the following buildings were listed and assigned building serial numbers:

- a. A house or any kind of building or shelter where people were actually living;
- b. A residential building (house, apartment or accesoria, condominium) that was vacant;

EXPLANATORY TEXT

- c. Hotel, motel, lodging house, dormitory or camp (construction, logging, mining, etc.) in operation;
- d. A commercial, office, industrial, agricultural or other kinds of buildings with one or more dwelling units (containing a kitchen/kitchen-dining room, living room and a bedroom, and with separate entrance) which were all vacant.

The different types of buildings are:

1. Single house – a complete structure intended for one household. It includes the so-called “nipa hut” or a small house that is built as a more or less permanent dwelling unit.
2. Duplex – a structure intended for two households, with complete living facilities for each. It is divided either vertically or horizontally into two separate dwelling units which are usually identical.
3. Apartment/accesoria/condominium/row house

An apartment is a structure usually of several stories, made up of three or more independent entrances from internal halls or courts. It differs from an accesoria in that an apartment has one common entrance from the outside.

An accesoria is usually a one or two-floor structure divided into three or more dwelling units, each dwelling unit having its own separate entrance from the outside. Another name for accesoria is row house.

A condominium is usually a high-rise building where the dwelling units are owned individually but the land and other areas and facilities are owned in common.

4. Improvised (barong-barong) – a makeshift or roughly constructed house usually built with salvaged materials.
5. Commercial/industrial/agricultural – buildings not intended for human habitation but used as dwelling units at the time of the census.

Commercial – a building used for transacting business or rendering professional services, such as a storage or an office building.

Industrial – a building used for processing, assembling, fabricating, finishing, manufacturing or packaging operations, such as a factory or a plant.

Agricultural – any structure used for agricultural purposes, such as a barn, warehouse, rice mill, etc.

6. Other housing unit (natural shelter, boat, etc.)

This refers to living quarters which are not intended for human habitation nor located in permanent buildings but which are, nevertheless, used as living quarters at the time of the census. Caves, other natural shelters and mobile housing units such as trailer, barge, boat, etc., fall within this category.

7. Hotel, lodging house, dormitory, etc. – This group comprises permanent structures which provide lodging and/or meals on fee basis. Hotels, motels, inns, boarding houses, dormitories, pensions and lodging houses fall within this category.
8. Institutional (hospital/convent/school dormitory/penal institution, etc.) – a building intended for persons confined to receive medical, charitable, or other care treatment such as jails and penal colonies, and other buildings like convents, school dormitories, etc.
9. Other collective living quarters – any structure or shelter which does not fall under items 7 and 8. Included in this category are camps which are defined sets of

EXPLANATORY TEXT

premises originally intended for the temporary accommodation of persons with common activities or interests like military camps, and other camps established for the housing of workers in mining, agriculture, public works or other types of enterprises.

DWELLING UNIT

A dwelling unit is a separate and independent place of abode intended for habitation by one household, or one not intended for habitation but occupied as living quarters by a household at the time of the census.

Dwelling units counted included those that are occupied and those that are unoccupied.

CONSTRUCTION MATERIALS OF ROOF

The kinds of materials used are as follows:

1. Galvanized iron/aluminum
2. Tile/concrete/brick/stone
3. Asbestos
4. Cogon/nipa
5. Makeshift/salvaged materials
6. Others (anahaw, etc.)

CONSTRUCTION MATERIALS OF OUTER WALLS

The kinds of materials may be any of the following:

1. Galvanized iron/aluminum
2. Tile/concrete/brick/stone
3. Wood/plywood
4. Mixed tile/concrete/brick/stone and wood/plywood
5. Asbestos
6. Bamboo/sawali
7. Cogon/nipa
8. Makeshift/salvaged materials
9. Others (anahaw, etc.)

If the roof or outer walls are constructed of two or more materials the material most used was reported.

YEAR BUILDING WAS BUILT

This refers to the year when the extent of construction permitted occupancy for living purposes. The year reported was the particular year when the occupancy started or when the building was fit for occupancy even if not occupied.

NUMBER OF ROOMS IN THE DWELLING UNIT

A room is defined as a space in a dwelling unit or other living quarters enclosed by walls reaching from the floor to the ceiling or roof covering, or at least to a height of 1.8 meters which are of permanent or semi-permanent structure, of a size large enough to hold a bed for an adult or at least has an area of 3 square meters.

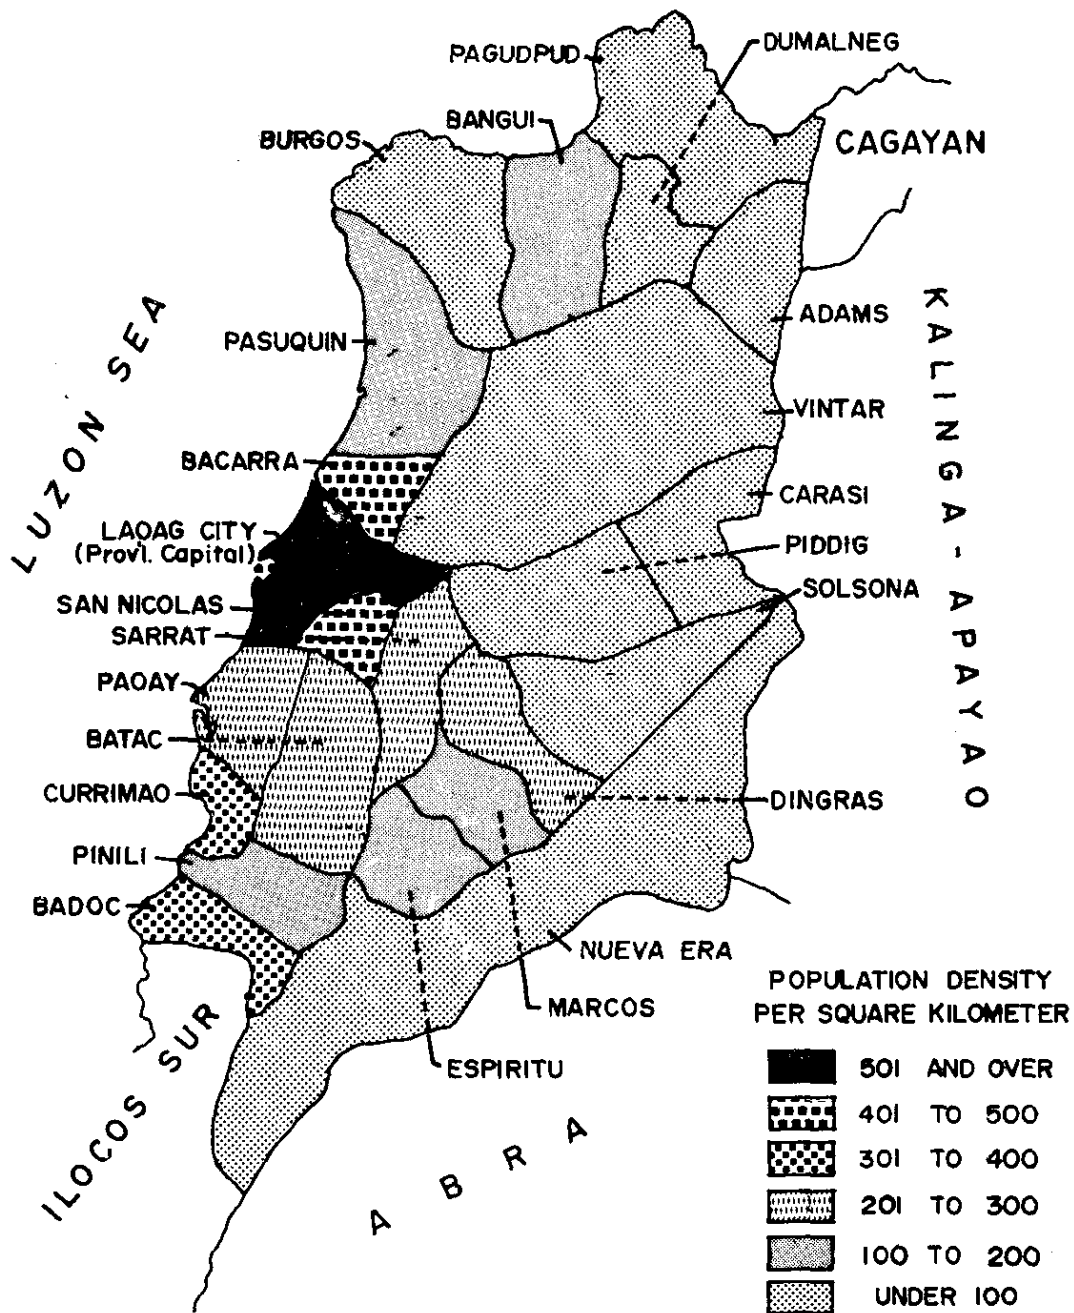

EXPLANATORY TEXT

The total number of rooms reported included the bedrooms, dining room, living room, kitchen, roofed veranda, library or music room and other separate spaces used or intended for dwelling purposes, as long as they meet the criteria of walls and floor space. Passageways, lobbies, bathrooms and toilets or rooms used exclusively as store/shop/clinic/grains storage (nobody sleeps therein) were not counted as rooms even if they meet the criteria.

FLOOR AREA OF DWELLING UNIT

This refers to the space enclosed by the exterior walls of the dwelling unit, or the space measured inside the outer walls of the spaces that are counted as rooms. In case of several floors, the area of each floor in square meters was taken and added together to get the total floor area of the dwelling unit. Area of floor spaces that are not considered rooms such as bathroom, toilet, storeroom, passageway was excluded in determining the floor area.

POPULATION DENSITY OF
ILOCOS NORTE PROVINCE
BY CITY/MUNICIPALITY: 1980

Ilocos Norte: A Brief Analysis

Ilocos Norte was created in February 1818 by virtue of a Spanish Royal Decree which divided Ilocos into two provinces. Stretching 140 kilometers northward from its sister province, it occupies the northwestern portion of Northern Luzon, its boundaries defined by Kalinga-Apayao on the east, Abra and Ilocos Sur on the south and southwest, and the Luzon Sea on the west.

Like most provinces in the Ilocos Region, Ilocos Norte has a rugged and rocky terrain, particularly in the eastern portion. While most of its 13 mountains are located in the south-eastern portion, Mt. Masadsac is found right in the heart of the province.

In the 1960 census, Ilocos Norte was composed of 19 municipalities and 3 municipal districts. By 1970 Laoag, the provincial capital, had already been converted into a city (June 19, 1965). However, after the creation of the municipality of Marcos on June 22, 1963, the number of municipalities and municipal districts remained unchanged in the 1970 through 1980 censuses.

POPULATION

In the 1980 census, the population recorded for Ilocos Norte was 390,666 (males — 192,194; females — 198,472), an increase of 18,942 persons or 5.10 percent within a five-year period. If the population were evenly distributed over its land area of 3,399.3 square kilometers, each square kilometer would be inhabited with nearly 115 persons (114.9), or an increase of 5.5 persons per square kilometer in its population density of 109.4 persons per square kilometer in 1975. The population figure put the annual geometric growth rate since May 1, 1975 at 1.00 percent, showing a downward trend of the growth rate registered at 1.60 percent between 1970 and 1975.

A slow rural to urban movement is observed in the province within the past five years. Almost three-fourths (73.47%) of the population still reside in rural areas and only 26.53 percent are in urban areas. The 1980 proportion of urban population is 3.12 percentage points higher than the 1975 figure. In contrast the 1975 urban population was 0.77 percentage point lower than the 1970 figure. The proportion of male urban residents rose from 11.27 percent to 12.54 percent or an increase of 1.27 percentage points from the previous proportion. The same pattern applies to the female population with the proportion of urban residents increasing from 12.14 percent to 13.99 percent and that of rural residents decreasing from 37.94 percent to 36.81 percent (Table A).

The following table shows the urban-rural distribution of the population for 1970, 1975 and 1980:

A BRIEF ANALYSIS

**TABLE A – URBAN-RURAL POPULATION BY SEX,
ILOCOS NORTE: 1970, 1975 AND 1980**

Area Classification and Sex	1980		1975		1970	
	Number	Percent	Number	Percent	Number	Percent
Total	<u>390,666</u>	<u>100.00</u>	<u>371,724</u>	<u>100.00</u>	<u>343,427</u>	<u>100.00</u>
Male	192,194	49.20	185,548	49.92	167,210	48.69
Female	198,472	50.80	186,176	50.08	176,217	51.31
Urban	<u>103,646</u>	<u>26.53</u>	<u>87,009</u>	<u>23.41</u>	<u>83,025</u>	<u>24.18</u>
Male	48,981	12.54	41,889	11.27	38,496	11.21
Female	54,665	13.99	45,120	12.14	44,529	12.97
Rural	<u>287,020</u>	<u>73.47</u>	<u>284,715</u>	<u>76.59</u>	<u>260,402</u>	<u>75.82</u>
Male	143,213	36.66	143,659	38.65	128,714	37.48
Female	143,807	36.81	141,056	37.94	131,688	38.34

A BRIEF ANALYSIS

The predominance of females within the five-year period decreased the sex ratio (number of males per 100 females) from 99.66 in 1975 to 96.84 in 1980. A predominance of females lies in the urban areas where there are only 89.60 males for every 100 females. In the rural areas, however, a nearly balanced sex ratio was attained at 99.59.

Table 2 provides an insight of the distribution of population by age group. As observed, a pyramid-like structure forms in the graph with a broader base of males and females below five years old and gradually declining as the group grows older except for the females 55-59 years old outnumbering those 45-49 and 50-54 age groups. This pattern is also discernible in the rural areas. On the other hand, varying patterns are noted for both urban males and females particularly in the first three youngest age brackets. (See also Figure 1).

AGE COMPOSITION

Persons in the younger age group display a steady decline over the last 10 years. From 39.84 percent of the total population in 1970, its corresponding proportion went down to 38.93 percent in 1975 then fell further to 37.61 percent in 1980. With a slight increase of 0.13 percentage point, the productive age group (15-64 years) still constitutes more than one-half (54.59%) of the population. In contrast to the younger age group, the proportion of the older age group (65 years and over) shows an upward trend. After accelerating by 0.34 percentage point between 1970 and 1975, it increased by 1.19 percentage points to 7.80 percent.

The succeeding table shows the comparative figures of the age composition of the population in three censal years:

**TABLE B — AGE COMPOSITION OF THE POPULATION,
ILOCOS NORTE: 1970, 1975 AND 1980**

Age Composition	1980		1975		1970	
	Number	Percent	Number	Percent	Number	Percent
Total	390,666	100.00	371,724	100.00	343,427	100.00
0-14 years	146,912	37.61	144,719	38.93	136,823	39.84
15-64 years	213,264	54.59	202,434	54.46	185,061	53.89
65 years and over	30,490	7.80	24,571	6.61	21,543	6.27

With a slight increase in percentage of persons in the productive age group, the dependency ratio declined from 83.63 in 1975 to 83.18 in 1980. Rural dependency ratio was markedly higher than the urban ratio, 84.63 for the former and 79.29 for the latter. Of the urban population, 34.65 percent belonged to the younger age group; 55.77 percent, to the productive age group and 9.58 percent, to the older age group. In the rural areas however, the proportion of the youth population was higher at 38.67 percent; correspondingly, the proportion of persons in the productive age group was 54.16 percent and 7.17 percent in the older age group.

A BRIEF ANALYSIS

MARITAL STATUS

Despite a decline of 2.83 percentage points since 1975, never married persons constituted 44.93 percent of the total population 10 years old and over. Almost half (47.16%) of the urban population were unmarried, compared to 44.08 percent of the rural residents. Married individuals maintained an upward trend, from 45.86 percent in 1970 to 46.31 percent in 1975 and 48.48 percent in 1980. A greater percentage of the married group was noted in the rural areas with 49.62 percent against 45.49 percent of the urban populace. Approximately 0.55 percentage point had been added to the 1975 proportion of widowed persons as they aggregated 6.20 percent. Divorced/separated persons slightly headed upward from 0.24 to 0.32 percent. Those with unknown or not stated status comprised 0.07 percent.

A BRIEF ANALYSIS

The proportion of never married males followed an up and down trend of 49.98 percent in 1970, 51.24 percent in 1975 and 47.07 percent in 1980. On the other hand, the proportion of never married women decreased by 1.46 percentage points. About 0.34 percent of the women aged 10-14 plunged into early marriages, while only 0.24 percent of the men aged 10-14 got married. The proportion of widowed males and females increased respectively to 3.44 percent and 8.81 percent. Divorced or separated men made up only 0.23 percent while their female counterparts rose slightly from 0.31 percent in 1975 to 0.40 percent. For both males and females with unknown status, the proportions were the same with 0.07 percent for each sex.

Below is the classification of the population 10 years old and over by sex and marital status:

**TABLE C — POPULATION 10 YEARS OLD AND OVER
BY SEX AND MARITAL STATUS, ILOCOS NORTE:
1970, 1975 AND 1980**

Sex and Marital Status	1980		1975		1970	
	Number	Percent	Number	Percent	Number	Percent
Both Sexes	<u>290,706</u>	<u>100.00</u>	<u>273,245</u>	<u>100.00</u>	<u>249,084</u>	<u>100.00</u>

Not stated	114	0.07	86	0.06	203	0.16

A BRIEF ANALYSIS

HIGHEST GRADE COMPLETED

The desire for higher learning is evident in the province of Ilocos Norte. This is observed in the increased proportions of the private household population 7 years old and over who reached the secondary and college levels, as well as those who earned academic degrees.

Compared to 1975, persons schooled in the secondary level increased by 3.47 percentage points (17.23% to 20.70%); those in the college level similarly gained 1.80 percentage points (5.35% to 7.15%); and academic degree holders, 1.25 percentage points (3.67% to 4.93%). In spite of a majority of 56.95 percent, those in the elementary level declined in its proportion (1.51 percentage points short of the 1975 proportion of 58.46%). The proportion of unschooled persons likewise decreased by 3.76 percentage points while those whose educational attainment was not stated, dropped from 1.56 to 0.30 percent.

A BRIEF ANALYSIS

Females registered higher proportions of elementary schoolers (50.90%) and academic degree holders (62.53%) than males (49.10% and 37.47%, respectively). On the other hand, males who had reached secondary level accounted for 22.68 percent, higher by 3.86 percentage points as compared to females (18.82%).

Approximately 32.25 percent of the 182,387 persons with elementary schooling finished anywhere from the first to the third grade; 18.14 percent, fourth grade; 11.77 percent, fifth grade; and 37.84 percent made it through the sixth or seventh grade. For those who reached the secondary level, 56.97 percent finished only the lower years, while the rest went through fourth year. Only 15.72 percent of the college undergraduates attended fourth year or higher; 84.28 percent decided to quit after reaching third year college or lower.

The succeeding table shows the distribution of the private household population seven years old and over by highest grade completed in the last two censal years:

**TABLE D – PRIVATE HOUSEHOLD POPULATION 7 YEARS OLD AND OVER
BY HIGHEST GRADE COMPLETED, ILOCOS NORTE: 1975 AND 1980**

Highest Grade Completed	1980		1975	
	Number	Percent	Number	Percent
Total	<u>320,239</u>	<u>100.00</u>	<u>312,647</u>	<u>100.00</u>
No grade completed	31,925	9.97	42,923	13.73
Elementary	182,387	56.95	182,758	58.46
High school	66,297	20.70	53,867	17.23
College	22,903	7.15	16,740	5.35
Academic degree holder	15,771	4.93	11,483	3.67
Not stated	956	0.30	4,876	1.56

LITERACY

The untiring effort of the government in providing opportunities for formal education all over the country, has paid off. As a result, Ilocos Norte's literacy rate gained 2.44 percentage points over the last ten years, from 79.95 percent in 1970 to 82.39 percent in 1980. The higher proportion of literates in urban areas (88.16%) may be attributed to the accessibility of more schools, compared to rural areas (80.22%).

Considering the ratio of the two sexes to the total number of literates in the province, the females prevailed over their male counterparts (50.87% females; 49.13% males). Females turned out more literates than males in urban areas. There were 53.03 percent female literates against 46.97 percent males who were able to read and write. In rural areas, on the other hand male literates took a very slight lead of 50.03 percent as compared with 49.97 percent female literates.

Nevertheless, the overall male literacy rate of 83.50 percent was still higher than the females' 81.35 percent. The literacy rate of male urban residents moderately exceeded that of the females with 89.79 percent for the former and 86.76 percent for the latter. A similar pattern was noted in the rural areas where the males recorded an 81.29 percent literacy rate compared with the females' 79.19 percent.

A BRIEF ANALYSIS

LANGUAGE OR DIALECT

Twenty-three languages and dialects are reported spoken in the 23 municipalities of the province, but despite this wide array, Ilocano remains to be generally spoken in the province. In three municipalities – Marcos, Paoay and Sarrat – no other dialect is reported except Ilocano.

Almost all of the 76,642 private households (99.08% or 75,934 private households) speak Ilocano. Apayao or Isneg is spoken by only 0.41 percent; Tagalog, by 0.27 percent; Lineyte-Samarnon (Waray), by 0.05 percent; and Pampango, Bontoc, Kalibugan and Chinese, by 0.02 percent each (Table 7).

A BRIEF ANALYSIS

GAINFUL OCCUPATION

More than two-fifths (44.86%) of the household population 15 years old and over are engaged in gainful occupations. As may be expected, the biggest group of gainful workers are agricultural, animal husbandry and forestry workers, fishermen and hunters, accounting for 63.12 percent of the total gainful workers in the province. Production and related workers, transport equipment operators and laborers, comprising 15.84 percent, trail far behind (Table 8).

While the agricultural group has always topped the list, the latest figure is lower by 2.21 percentage points compared to 1975. On the other hand, more gainful workers shifted to production, which gained 1.46 percentage points between 1975 and 1980. Professional, technical and related workers remain third at 7.09 percent, an increase of 1.07 percentage points over 1975. Sales workers rank fourth at 4.85 percent while service workers are behind by only 0.04 percentage point, with its decreasing proportion of 5.13 percent in 1975 to 4.81 percent in 1980. Meanwhile, clerical and related workers have steadily grown from 2.55 to 3.31 percent, while administrative, executive and managerial workers have slightly declined from 0.68 to 0.42 percent. Unclassified workers account for only 0.56 percent.

Table E shows the comparative figures on the proportion of workers engaged in various gainful occupations from 1975 to 1980.

TABLE E – GAINFUL WORKERS 15 YEARS OLD AND OVER BY MAJOR OCCUPATION GROUP, ILOCOS NORTE: 1975 AND 1980

Major Occupation Group	1980		1975	
	Number	Percent	Number	Percent
Total	<u>109,118</u>	<u>100.00</u>	<u>101,624</u>	<u>100.00</u>
Professional, technical and related workers	7,737	7.09	6,115	6.02
Administrative, executive and managerial workers	455	0.42	692	0.68
Clerical and related workers	3,609	3.31	2,592	2.55
Sales workers	5,291	4.85	4,970	4.89
Service workers	5,255	4.81	5,210	5.13
Agricultural, animal husbandry and forestry workers, fishermen and hunters	68,876	63.12	66,392	65.33
Production and related workers, transport equipment operators and laborers	17,287	15.84	14,619	14.38
Workers not classifiable by occupation	608	0.56	1,034	1.02

A BRIEF ANALYSIS

INDUSTRY

Agriculture, fishery and forestry dominate the industry group with 63.58 percent of the total gainful workers. Agricultural crop production chiefly comprises this group (91.22%) with only 5.55 percent in fishery and 1.54 percent in the production of livestock, poultry and other animals. About 14.20 percent are engaged in community, social and personal services, which consist mainly of three sources of jobs, such as education services (32.41%), personal and household services (28.73%), and public administration and defense (22.04%). Transportation, storage and communication comprise only 5.03 percent, while wholesale and retail trade contribute 4.61 percent. Manufacturing accounts for 4.24 percent; construction, 3.88 percent; and financing, insurance, real state and business services, 1.55 percent. Two industry groups – electricity, gas and water (0.47%) and mining and quarrying (0.34%), contribute less than 1 percent each. Approximately 2.10 percent are engaged in activities not adequately described (Table 9).

A BRIEF ANALYSIS

MIGRATION

Majority of the populace aged 5 years and over (96.49%) resided in the same city/municipality where they had resided on May 1, 1975. About 1.35 percent were living in another city/municipality within Ilocos Norte (intra-provincial migrants), while 2.01 percent were residents of another province (inter-provincial migrants). Only a small percentage (0.15%) were residing in foreign countries. The females surpassed the males both in terms of intra-provincial migration (0.76% females; 0.58% males) and inter-provincial migration (1.17% females; 0.84% males).

A BRIEF ANALYSIS

TYPE OF BUILDING

A large majority or 98.55 percent of the 76,642 households are occupying single houses. The remaining 1.45 percent live in other types of structures, viz: duplex, 0.61 percent; apartment/accesoria/condominium/row house, 0.18 percent; improvised (barong-barong), 0.38 percent; commercial/industrial/agricultural building, 0.22 percent and other structures, 0.06 percent (Table 1).

The comparative table that follows presents a picture of the housing conditions in Ilocos Norte during the two censal years:

**TABLE F — NUMBER OF HOUSEHOLDS IN OCCUPIED DWELLING UNITS
BY TYPE OF BUILDING, ILOCOS NORTE: 1970 AND 1980**

Type of Building	1980		1970	
	Number	Percent	Number	Percent
Total	<u>76,642</u>	<u>100.00</u>	<u>65,131</u>	<u>100.00</u>
Single house	75,536	98.55	63,067	96.83
Duplex	468	0.61	321	0.49
Apartment/accesoria/condominium/ row house/etc.	136	0.18	148	0.23
Improvised (barong-barong)	295	0.38	1,406	2.16
Commercial/industrial/agricultural	167	0.22	180	0.28
Other housing unit: natural shelter, boats, etc.	5	0.01	—	—
Hotel, lodging house, dormitory, etc.	15	0.02	—	—
Institutional (hospital, convent, school dormitory, etc.)	15	0.02	9	0.01
Other collective living quarters (military camp, etc.)	5	0.01	—	—

The number of households living in duplex is slightly higher in the urban areas (54.91%) than in the rural areas (45.09%). As also noted, a greater proportion of households living in apartment/accesoria/condominium/row house/etc. (88.97%) are in the urban against 11.03 percent in the rural areas. More than four-fifths (88.02%) of 167 households occupying commercial/industrial/agricultural buildings are found among urban dwellers, compared to only 11.98 percent rural dwellers. Two-thirds, or 66.67 percent of the households living in institutional buildings (hospital, convent, school dormitory, etc.) are in the urban, and one-third, or 33.33 percent are in the rural areas. Likewise, dwelling units in hotel, lodging house, dormitory and other similar structures are entirely occupied by urban dwellers.

In contrast, most of the households living in single houses (73.91%) are found in the rural areas; only 26.09 percent are located in the urban areas. Moreover, around two-thirds (67.80%) of the occupants of improvised structures are residents of rural areas and 32.20 percent, of urban areas. On the other hand, all of the households living in other housing units such as natural shelter, boat, etc. are in the rural areas.

A BRIEF ANALYSIS

TYPE OF OCCUPANCY

Of the total number of households, 70,726 or 92.28 percent are owners of their occupied dwelling units. The rest of the households are broken down as follows: 2.71 percent, tenant/lessee; 0.10 percent, subtenant/sublessee; and 4.91 percent, rent-free occupants.

A little more than three-fourths (75.17%) of the owners are in rural areas and only 24.83 percent, in urban areas (Table 1).

CONSTRUCTION MATERIALS OF ROOF AND OUTER WALLS

Approximately 76.36 percent of the total number of households are in dwelling units built with roof of strong materials (galvanized iron, tile/concrete/brick/stone and asbestos) and 23.64 percent, with roof of light materials (cogon/nipa, makeshift/salvaged materials, and other such as anahaw, etc.). Households in dwelling units with roof of strong materials constitute 89.15 percent and 10.85 percent, of light materials in the urban areas. Majority of the households (71.74%) in the rural areas are likewise in units constructed with roof of strong materials and 28.26 percent, of light materials.

By type of construction materials of outer walls, less than two-thirds (62.01%) of the households have dwelling units constructed with walls of strong materials and 37.99 percent, of light materials. In the urban areas, most of the households have dwelling units constructed with walls of strong materials (81.71%) and only 18.29 percent have light materials. In the rural areas, the proportion of households in dwelling units with walls of strong materials is slightly higher (54.88%) than those with walls of light materials (45.12%).

YEAR BUILT

As can be gleaned from Table 2, more than one-fifth (21.91%) of the total households are in structures built during 1976-1980; 19.69 percent, in 1971-1975; 25.87 percent, during 1961-1970; and 17.32 percent, in 1951-1960. The rest are in units built 30 or more years ago (7.83% in 1942-1950 and 7.38% in 1941 or earlier).

FLOOR AREA OF DWELLING UNIT

More than two-fifths (43.90%) of the total households live in dwelling units with floor area of less than 30 square meters; 32.32 percent, 30-49 square meters; 12.06 percent, 50-69 square meters and 6.98 percent, 70-99 square meters. Only 4.74 percent enjoy living in dwelling units with an area of 100 square meters and over (Table 3).

TENURE OF OWNER-OCCUPANT WITH RESPECT TO THE LAND

It is of interest to note that about 86.54 percent of the 70,726 households who claim they own their dwelling unit also own the lot where the structure is erected. Others are distributed as follows: 3.24 percent, lessee or sublessee; 5.73 percent, farm lessee/agricultural tenant of landowner; 2.52 percent, other legal tenure; and 1.97 percent, no tenure (Table 4).

SOURCE AND USE OF WATER SUPPLY

Census results show that the dug well is the most common source of water supply of households in Ilocos Norte whether for drinking (47.87% of the total households), for

A BRIEF ANALYSIS

kitchen use (53.69%), or for washing clothes (42.22%). Next to dug well, the population utilize water from the faucet, community water system for drinking (21.08% of the total households) and for kitchen use (16.43%). However, only 11.52 percent use this source for washing clothes. The tubed/piped deep well is used by 16.07 percent for drinking; 12.99 percent, for kitchen use and 11.29 percent, for washing clothes. The corresponding figures for tubed/piped shallow well users are 10.00 percent, 11.84 percent and 9.45 percent. A sizeable portion of the population (22.92%), especially the rural folks, still stick to lakes, rivers and streams as an ideal place for washing clothes. Other households make use of other water facilities such as spring and rain water for drinking and in their daily household chores (Table 6).

KIND OF LIGHTING FACILITIES

Electricity is the common type of lighting with 54.21 percent of the total households using it. Less than one-half (44.98%) use kerosene; 0.72 percent, liquefied petroleum gas and 0.09 percent, oil and other. Likewise, most urban dwellers (84.19%) use electricity; 14.93 percent, kerosene; 0.81 percent, liquefied petroleum gas and only 0.07 percent, oil and other. On the other hand, kerosene users are slightly higher in the rural areas than consumers of electricity (55.85% against 43.37%) while users of liquefied petroleum gas, oil and others constitute 0.69 percent, 0.05 percent and 0.04 percent, respectively (Table 5).

COOKING FUEL

Basically, charcoal or wood stands out as a convenient means of cooking in this province. As shown in Table 8, wood or charcoal users reach as high as 82.82 percent of the total households. The rest use either liquefied petroleum gas (11.62%), kerosene (3.63%), electricity (1.84%) and other (0.09%).

The predominant use of wood or charcoal is greatly observed in both urban and rural areas registering 63.74 percent for the former and 89.72 percent for the latter. The use of liquefied petroleum gas is more common in urban areas with 28.50 percent as compared with rural's 5.51 percent.

TOILET FACILITIES

Six out of ten households (61.24%) mainly use water-sealed with depository other than sewer/septic tank as their toilet facility. As estimated 25.40 percent use water-sealed with sewer/septic tank; 7.24 percent, closed pit or antipolo type; 4.65 percent, open pit; and 0.14 percent, other (pail system, etc.). About 1.33 percent of the households are without toilet facilities (Table 7).

Figures of the 1980 census indicate that rural households are no longer much behind their urban counterparts as far as health practices are concerned. Urban households widely use water-sealed with sewer/septic tank (42.74%) and water-sealed with other depository (50.06%). A minimal number use the closed pit (5.15%) and open pit (1.78%) types. Only 15 households reported using other toilet facilities (pail systems, etc.) while a small 0.20 percent have none at all. The comparable figures for the rural households are: 65.29 percent have water-sealed with other depository; 19.13 percent, water-sealed with sewer/septic tank; 8.00 percent, closed pit; 5.69 percent, open pit; 0.16 percent, other types and 1.73 percent have none.

A BRIEF ANALYSIS

OWNERSHIP OF RADIO, TELEVISION SET AND REFRIGERATOR/FREEZER

Almost three-fourths (74.14%) of the total households own radios. However, television sets and refrigerators/freezers are not very common among Ilocos Norte households with only 9.38 percent and 11.95 percent, respectively, possessing them.

As shown in Table 9, households with radio are very common both in the urban and rural areas with 80.18 percent and 71.96 percent, respectively. As may be expected, urban dwellers who own television sets (22.33%) and refrigerators/freezers (28.31%), constitute a greater number compared to television and refrigerator/freezer owners in the rural areas, which constitute roughly 4.70 percent and 6.03 percent, respectively.

SERIAL NO. (from PH Form 1)			
Blg	DU	HH	
6			

12. 21

H-1 to H-4 are to be asked only of the first sample household in every building (Repeat entries for other sample households in this building.)

H-1 What type is this building/house?

- 1 Single House
- 2 Duplex
- 3 Apartment/Accorral/Condominium/Row house/etc.
- 4 Improvised (baroque/barong)
- 5 Commercial/Industrial/Agricultural
- 6 Other housing unit: natural shelter, boat, etc.
- 7 Hotel, lodging house, dormitory, etc.
- 8 Institutional (hospital/convent/school dormitory/penal institution)
- 9 Other collective living quarters (refugee camp, logging camp, military camp, etc.)

H-2 What construction material is the roof made of?

- 1 Galvanized Iron/Aluminum
- 2 Tile/Concrete/Brick/Stone
- 3 Asphalt
- 4 Copra/Nipa
- 5 Makabit/Salvaged Materials
- 6 Other (anahaw, etc.)

H-3 What construction material are the outer walls made of?

- 1 Galvanized Iron/Aluminum
- 2 Tile/Concrete/Brick/Stone
- 3 Wood/plywood
- 4 Mixed Tile/Concrete/Brick/Stone and Wood/plywood
- 5 Asphalt
- 6 Bamboo/Sawali
- 7 Copra/Nipa
- 8 Makabit/Salvaged Materials
- 9 Other (anahaw, etc.)

H-4 When was this building/house built?

- 1 1980
- 2 1979
- 3 1978
- 4 1977
- 5 1976
- 6 1971 - 1975
- 7 1961 - 1970
- 8 1951 - 1960
- 9 1942 - 1950
- 0 1941 or earlier

Transcribe
encircled codes
here.

H-1	22
H-2	23
H-3	24
H-4	25

H-5 and H-6 are to be asked of the sample household in the dwelling unit. (Repeat entries for other sample households in this dwelling unit.)

H-5 How many rooms are in this dwelling unit (excluding bathroom, toilet, storeroom, passageway)?

- 1 Room
- 2 Rooms
- 3 Rooms
- 4 Rooms
- 5 Rooms
- 6 Rooms
- 7 Rooms
- 8 Rooms
- or more

H-6 What is the floor area of this dwelling unit in square meters?

- 1 Less than 30 sq. meter
- 2 Specify: sq. m.
- 3 30-49 sq. meters
- 4 50-69 sq. meters
- 5 70-99 sq. meters
- 6 100-199 sq. meters
- 7 200-249 sq. meters
- 8 250-299 sq. meters
- 9 300 sq. meters & over
- Specify: sq. m.

H-5	26
H-6	27

H-7 to H-13 should be answered by all sample households.

H-7 How does this household occupy this dwelling unit?

- 1 Owner
- 2 Tenant/Lessee
- 3 Sub-tenant/sublessee
- 4 Rent-free

H-8 (If household owns this dwelling unit) What is your tenure with respect to the land?

- 1 Owner
- 2 Lessee or sublessee
- 3 Farm lessee/agricultural tenant of landowner
- 4 Other legal tenure
- 5 No tenure (squatter, etc.)
- 6 Not applicable

H-9 What kind of lighting do you use?

- 1 Electricity
- 2 Kerosene
- 3 Liquefied Petroleum Gas (LPG)
- 4 Oil (vegetable, animal)
- 5 Other

H-10 What is the main source of your water supply - (Encircle only one for each use.)

	For Drinking?	For Kitchen Use?	For Washing Clothes?	Source of Water Supply
01	01	01	01	Faucet inside house/yard, Community Water System
02	02	02	02	Faucet, Public, Community Water System
03	03	03	03	Faucet, Other, Community Water System
04	04	04	04	Tubed/ripped deep well, At least 5 of 20 ft. Own Use
05	05	05	05	Tubed/ripped deep well, 30 meters deep
06	06	06	06	Public Tubed/ripped deep well, 30 meters deep
07	07	07	07	Tubed/ripped shallow well, Own Use
08	08	08	08	Tubed/ripped shallow well, Public
09	09	09	09	Tubed/ripped shallow well, Other
10	10	10	10	Dug well, improved (covered and no seepage from side)
11	11	11	11	Dug well, Other
12	12	12	12	Spring, improved (with tube/pipe outlet)
13	13	13	13	Spring, Other
14	14	14	14	Rain
15	15	15	15	Lake, river, stream, irrigation, etc.

	40
	41

H-11 What kind of fuel do you use most of the time for cooking?

- 1 Electricity
- 2 Kerosene
- 3 Liquefied Petroleum Gas (LPG)
- 4 Wood, charcoal
- 5 Other

H-12 What kind of toilet facilities do you use?

- 1 Water-sealed, sewer/septic tank, used exclusively by household
- 2 Water-sealed, sewer/septic tank, shared with other households
- 3 Water-sealed, other depository, used exclusively by the household
- 4 Water-sealed, other depository, shared with other households
- 5 Closed pit (antipolo, etc.)
- 6 Open pit
- 7 Other (pail system, etc.)
- 8 None

H-13 Do you have these appliances in working condition?

- | YES | NO | a. Radio | b. TV | c. Refrigerator/Freezer |
|-----|----|----------|-------|-------------------------|
| 1 | 2 | 1 | 2 | 1 |
| 39 | 40 | 41 | | |

CERTIFICATION

I HEREBY CERTIFY that the data set forth in this form were personally obtained by me in accordance with the rules and regulations promulgated by the National Census and Statistics Office.

Name of person accomplishing this form
 (Printed Name & Sign)
 Title _____
 Date _____ 1980

PERSONS TO BE ENUMERATED AS MEMBERS OF COLLECTIVE HOUSEHOLDS

1. HOTELS, LODGING HOUSES, DORMITORIES, ETC.

- a. Proprietor, manager and employees living in the establishment, except those living therein with their own families and those who usually go home to their respective families at least once a week.
- b. Permanent lodgers/boarders (those who have stayed or expect to stay for one year or longer) and those temporary lodgers/boarders who have stayed for six months or longer as of May 1, 1980 or have been away from their own families for the same period. However, exclude those who usually go home at least once a week.
- c. Lodgers/boarders who are not residents of the Philippines and who have been in the Philippines for one year or longer as of May 1, 1980, or expect to stay in the Philippines for one year or longer. However, exclude those who have temporary place of residence elsewhere in the Philippines to where they usually go home. Exclude also diplomatic representatives of UN, ILO or USAID officials who, like diplomatic representatives, are subject to reassignment to other countries after their tour of duty in the Philippines, and members of their families.

2. HOSPITALS AND NURSES' HOMES

- a. All patients, including those just confined, in mental hospitals, leprosaria or leper colonies, pavilions of tuberculosis sanatoria where patients stay more or less permanently, and rehabilitation centers for drug addicts.
- b. Patients who have been confined for six months or longer as of May 1, 1980 in other kinds of hospitals and in wards for temporary confinement in tuberculosis sanatoria.
- c. Nurses in nurses' homes who do not usually go home at least once a week.
- d. Staff members and employees living in hospitals/nurses' homes, except those living therein with their families and those who usually go home at least once a week.

3. WELFARE INSTITUTIONS (Homes for the Aged and Infirm, Orphanage, Boys' Town, etc.)

- a. All inmates or wards, including those just confined.
- b. Staff members and employees living in the institutions, except those living therein with their families and those who usually go home at least once a week.

4. CORRECTIVE AND PENAL INSTITUTIONS

- a. All prisoners in national prisons and reformatories (welfareville).
- b. Prisoners and detainees in provincial or city/municipal jails who have been continuously confined for six months or longer, including confinement elsewhere, as of May 1, 1980, or those whose sentence is for six months or longer even if the sentence is on appeal.
- c. Staff members and employees living in the institutions except those living therein with their own families and those who usually go home at least once a week.

5. CONVENTS, NUNNERIES, SEMINARIES, AND BOARDING SCHOOLS

- a. Monks, priests, ministers, nuns, seminarians etc. However, priests or ministers of sects other than the Roman Catholic Church who live in the convent or house close to church or chapel with their own families are to be excluded (private households).
- b. Students in boarding schools (schools where students are required to stay in the school campus).
- c. Staff members, employees and helpers living in the premises, except those living therein with their own families and those who usually go home at least once a week.

6. MILITARY CAMPS AND STATIONS (PC, Army, Air Force and Navy): PMA

- a. Officers and enlisted men/draftees, except those who live in the premises with their own families and those who usually sleep most nights with private households or in hotels, lodging places or dormitories. Include those belonging to the unit in the camp or station who are away on military operation or mission or aboard naval vessels, except those whose families are living in the camp or station (their own families will report them).
- b. PMA cadets and trainees whose training is for six months or longer.
- c. Detainees who have been continuously confined for six months or longer, including confinement elsewhere, as of May 1, 1980.
- d. Civilian employees living in the camp or station, except those living therein with their own families and those who usually go home at least once a week.

7. LOGGING, MINING AND CONSTRUCTION/PUBLIC WORKS CAMPS, PLANTATIONS AND AGRICULTURAL/FISHERIES EXPERIMENTAL OR BREEDING STATIONS, ETC.

- a. Proprietor, manager, contractor and employees who do not live with their families in the premises and are supplied lodging (beddings, etc.) and/or meals by the company, firm, contractor or agency, except those who usually go home at least once a week.

8. OCEAN-GOING AND INTERISLAND/COASTAL VESSELS OR DEEP-SEA FISHING VESSELS

- a. Filipino crew members of ocean-going vessels (whose own families live in the Philippines) at port as of 12:01 A.M. May 1, 1980, except those who usually go home to their own families in the Philippines at least once every six months.
- b. Any crew member of interisland/coastal vessel or deep-sea fishing vessel at port on any day during the enumeration, if the crew member has no home other than the vessel.

9. REFUGEE CAMPS

- a. Filipino citizens working and living inside the camps
